

The 2015 Top 50 Most Powerful Women in Technology announced by the National Diversity Council

The 2015 Top 50 Most Powerful Women in Technology features the highest-ranking female executive leadership in America's corporations.

HOUSTON-The National Diversity Council announces the 2015 Top 50 Most Powerful Women in Technology, a definitive list of female executives, influencers and achievers impacting the technology industry.

"The 2015 Top 50 Most Powerful Women in Technology features the highest caliber of executive leaders within this industry," said Dennis Kennedy, founder and CEO of the National Diversity Council. "We are honored to feature such a powerful group of inspirational women reaching new heights of achievement in business."

Selection to the list was based on the following criteria:

- Top leader in her organization and profession
- Directly contributes to business growth or strategic direction of the organization
- Maintains a record of accomplishments in areas of expertise
- Effective role model who inspires other women and is active in mentoring the next generation of female professionals in the industry
- Operates with the highest integrity and ethical behavior
- Demonstrates a commitment to corporate citizenship
